Female entrepreneur in the Middle East

Female entrepreneurship is no exception. Jordan, which has the lowest percentage of women-owned businesses in the region, still has 6% of female-run enterprises generating revenues in excess of USD100,000. This compares to 33% in the UAE and 13% in the USA. There are a number of female 'sole owners' in the MENA region: 60% in Bahrain and 40% in Lebanon. Female entrepreneurs in the region have extensive experience ranging from 5.9 years in the UAE to 10.6 years in Lebanon. Women are optimistic and poised for growth. Female entrepreneurs in the region have extensive experience ranging from 5.9 years in the UAE to 10.6 years in Lebanon. Women are optimistic and poised for growth.
